# Companies Identified

*Live pipeline snapshot from the InvestUAE Signal Intelligence platform*

Snapshot generated 2026-04-19 from https://backend-lyart-three-63.vercel.app

This document is the companion output to the main InvestUAE Signal Intelligence pilot delivery. It lists the top twenty-five companies currently in the ranked pipeline, selected by composite score across investability and United Arab Emirates alignment. For each company, the table that follows captures the company name, identified sectors, headquarters, expansion intent, the individual signals detected across the rolling ninety-day window with links to their supporting public sources, and a brief explanation of why the company represents a potential investment opportunity.

This list regenerates automatically on every pipeline refresh. The version presented here was captured live at the timestamp shown on the cover page. The live ranking, additional filters and per-company dossiers are available on the platform.

## Top twenty-five companies at a glance

| # | Company | Sector | Headquarters | Composite | Signals |

## Sources and methodology

Every signal above traces back to a public source listed in its Source column. The platform ingests twenty-four feeds spanning MENA business press, global technology media, native Arabic-language publishers, founder interviews and primary financial filings. Classification uses a blend of embedding similarity and keyword pattern matching, scored across investability and United Arab Emirates alignment. The pipeline is ninety-day rolling and refreshes on a daily 06:00 UTC cron.

For the full methodology page, the per-company dossier with thesis and recommended next actions, and the live ranking, please visit the platform linked on the cover.
